Dear Mr. Merritt:

I am pleased to forward to you our latest in a series of population statistics entitled, 1982 Hamilton-Wentworth Population Statistics. Mrs. Von Rosenbach had requested a copy for the main Library's Government Documents Section.

We will continue the practice of making this document available to the public in this manner, however, due to the restraint program currently under practice by the Ministry of Revenue who supply the basic data, we will not be able to send another copy for three more years.

Yours truly,

L. J. Lanza, P.Eng.,
Manager

INTRODUCTION

The 1982 Hamilton-Wentworth Population Statistics is the ninth annual publication of Population Statistics produced by the Regional Planning Division of the Regional Planning and Development Department. This information has been compiled in recognition of the usefulness of population information in the planning process. By expanding on the Ministry of Revenue, Standard Assessment System, population data is tabulated into geographic areas that have meaning in the local community. Reference maps are provided to assist users. Because of the volume of data and the expense of production, the number of copies of this document is limited. However, provision has been made to allow certain municipal agencies to acquire their own copies. Area Municipalities of the Region have been given relevant tabulations pertaining to their component constituencies, and the Hamilton Public Library maintains a series of these documents in its Government Documents Section , Main Library for public purposes. Other agencies interested in acquiring copies should be directed to the Information and Special Studies Section, Regional Planning Division .

The tabulations which follow are organized into three sections. Section 1 gives municipal figures for the Region and the 6 area municipalities: (Hamilton is also subdivided by the escarpment). Section 2 gives Planning Divisions, a subdivision within municipality; and Section 3 gives the neighbourhood level, a subdivision within Planning Division. Only the Municipalities of Dundas, Hamilton, and Stoney Creek have neighbourhood level tabulations. Each geographic area is reported using three formats with overlaps taking place under the age grouping. This was done to satisfy the multitude of the most commonly requested data. Other age groupings may be derived simply through a combination of the three given formats.

It should be noted that the assessment data base used to create these 1982 tabulations was based on a full scale enumeration. Since 1981, it has been the policy of the assessor to only conduct full enumerations concurrent with municipal election years in Ontario, and 1982 was an election year. In the interim years partial enumerations will be conducted, and while population tabulations may be produced, it is not considered wise to attempt to draw conclusions in comparing results with full scale enumeration years.

CAUTION

In order to give a better understanding and prevent any misrepresentation of the data being presented,the following notes should be carefully considered

1. Discrepancies will be observed when comparing these statistics with those released by the Ministry of Revenue. The difference is unavoidable. It occurs because the data base which produces these tabulations varies in time by three months from the base that is used by the Ministry. The official census population is produced by the Ministry and also includes an appended adjustment which is included in this publication. The following table illustrates the difference between the two reporting systems, by municipality, in 1982.

1982 POPULATION

MUNICIPALITY	SEPTEMPER	END OF YEAR	DIFFERENCE
Hamilton	308,102	308,402	300
Ancaster	14,733	14,780	47
Dundas	19,699	19,689	-10
Stoney Creek	37,481	37,613	132
Flamborough	24,575	24,610	35
Glanbrook	9,585	9,549	-36
Hamilton-Wentworth	414,175	414,643	468

2. Users may note that handwritten adjustments have been made to some of the tables in this publication. This discrepancy is due to irregularities in the Assessor's enumeration of students living on the McMaster University Campus in the "Cootes Paradise" Neighbourhood. Similar discrepancies have occured in every year since 1972. Age and sex breakdowns are not available for the adjusted populations. A summary of affected areas and resulting population follows:

Population of Cootes Paradise Neighbourhood (6906)	2,344
Population of Planning Division "69"	19,949
Population of "Lower City"	196,048
Population of City of Hamilton	308,402
Population of Region	414,643

The following two tables provide amended population figures for the Cootes Paradise Neighbourhood, Planning Division 69, the Lower City, the City of Hamilton and the Region from 1973 to 1982 with consistent considerations for McMaster Campus residents.
